ABOUT ME

Helping people and making a difference is what drives me. I have always been captivated by the potential of **Computer Science** and **Artificial Intelligence** to solve complex societal problems. I believe responsible technological progress relies on **open-source** collaboration and **privacy-preserving** architectures, and I am driven to build systems that uphold these values.

EXPERIENCE

Visiting Instructor & Participant (Crypto Specialist)
BCA College (Executive Education)
Nov 2024 – Jun 2025 · *Athens, Greece*

- Designed and delivered modules on **AI Agents**, **Financial Time Series Forecasting**, and **Prompt Engineering** tailored for the **Web3 & Crypto** ecosystem.
- Concurrently mastered the **Blockchain, Crypto & Web3** curriculum, gaining deep domain expertise.
- Web3 Blockchain Forecasting GenAI Teaching

AI Researcher (Contractor)
KLEPTOTRACE Project (EU Co-funded)
May 2024 – Aug 2024 · *Athens, Greece*

- Co-authored paper on **Entity Extraction via LLMs** for financial crime detection [arXiv].
- Built **Knowledge Graph** construction pipelines from unstructured text in a **fully local** environment.
- Deployed **open-weight LLMs** via Ollama for privacy-preserving inference without external APIs.
- LLMs Knowledge Graphs Ollama LangChain NLP Python

AI Computer Vision Researcher (Military Service)
Hellenic Army
Mar 2023 – Nov 2023 · *Greece*

- Selected for the **Research, Technological Development and Innovation Center of the Hellenic Military** during mandatory service; contributed to 4-month intensive Computer Vision project.
- Experimented with, trained, and deployed models on **resource-constrained hardware** (On-Device AI).
- Fulfilled mandatory military service obligations.
- Computer Vision On-Device AI

Sr. Analytics Solutions Analyst
The Coca-Cola Company
Jun 2021 – May 2022 · *Athens, Greece*

- **Promoted** to Senior role after just 3 months as Analytics Solutions Analyst (Jun 2021 – Aug 2021).
- Engineered robust **Time Series Forecasting** pipelines for complex commercial datasets.
- Statsmodels Scikit-learn Forecasting Azure Databricks PowerBI Pandas Python

Data Analyst
The Coca-Cola Company (via Comdata)
Jan 2020 – May 2021 · *Athens, Greece*

- Co-developed a **Recommendation Engine** for HR Analytics.
- Architected data collection pipelines (APIs) to support real-time reporting dashboards.
- PySpark Azure Databricks PowerBI NLP Pandas Scikit-learn Python SQL

NLP Engineer (Erasmus+)
Middlesex University London
Jan 2018 – Jul 2018 · *London, UK*

- Developed a semantic search engine matching jobs to courses and vice versa.
- NLTK SpaCy Django Full-Stack Python JavaScript

ML Researcher (Internship)
National Observatory of Athens
Jul 2016 – Sep 2016 · *Athens, Greece*

- Created a magnetometer calibration app using time series analysis in Java and Octave/Matlab.

EDUCATION

PhD Candidate
Jan 2024 – Present
Harokopio University of Athens
Topic: Financial Time Series Forecasting using Deep Learning Techniques

- Investigating the efficacy of **Transformers vs. LSTMs** for long-horizon financial time series forecasting.
- Pioneering a **text-to-graph methodology** to enrich quantitative models with insights from financial reports.

MSc in Data Science & IT – Big Data & AI
Oct 2018 – Present
National and Kapodistrian University of Athens
Thesis: "LLMGrapher: Transforming Texts to Knowledge Graphs with the Power of Large Language Models"

- Developed local, privacy-first pipeline converting text to graphs using **Ollama** and **Llama 3.1**.
- Thesis Presented: Oct 2025 (Grade Pending).
Coursework Projects: Built Deep Learning & classical ML solutions using **TensorFlow**, **Keras**, **Scikit-learn** and **NumPy**.

MSc in Digital Innovation & Startup Entrepreneurship
Oct 2020 – Oct 2022
National Technical University of Athens & University of the Aegean
Thesis: "Artificial Intelligence as a Business Incubator"

- Comparative analysis of AI business models tailored to specific organizational goals.
GPA: 9.04/10

BSc in Informatics and Telematics
Sep 2013 – Nov 2017
Harokopio University of Athens
Thesis: "Image Classification using Deep Learning Techniques"
GPA: 9.4/10 **(Valedictorian)**
